

London Underground Recruitment

Coyle Rail's London Underground Division specifically caters for the needs of London Underground Ltd and its subcontractors.

We deal with the supply of experienced professional and technical personnel, skilled engineers, and protection staff. We have an extensive database of candidates seeking both short and long-term contracts, as well as permanent positions.

We pride ourselves on our client service, which is supported by consultants experienced in the London Underground environment.

Coyle say with confidence that we have exceptional compliance and assurance processes and are the only agency in the industry to calculate real-time fatigue levels.
