

Permanent Way Recruitment

Coyle Rail has been a supplier of track maintenance and possession management staff to the rail industry since 1996, and we now supply staff to Network Rail and all the major infrastructure maintenance companies.

Not only do we supply staff on a contract basis, but we also have a large database of candidates seeking permanent positions. Our database is continually being updated to truly reflect current availability.

We pride ourselves on being available at all times and are able to provide site supervision day and night, resulting in a unique 24 hour, 365-day on call service.

We have a full training facility based in our Harrow offices. Site audits are carried out on a regular basis by our site supervisors. Random drugs and alcohol tests are also carried out.

Staff we supply

- Plant operators
- Machine controllers
- Training cleaning
